Heritage Fellowship Church engaged LeMay Erickson Willcox to explore redevelopment of their existing 250-seat church property for a much larger facility. The redeveloped site more than triples the existing church area with a new campus that centers on an 800 seat sanctuary illuminated by a large clerestory. Sloped flooring and a radial seating pattern enhance the sense of gathering while ensuring excellent sightlines to the pulpit and choir area. Wrapped around a gracious courtyard, the new campus also includes a 100 seat chapel, a 400 seat fellowship hall, classrooms, offices, and an 80 person choir rehearsal space.
